## Importers of Audi / VW / Skoda / Seat Parts

Volume 44

Summer 2016

	A special thank you to Joan for	
	creating our fantastic	
	newsletters for over a decade!	
*Happy motoring,*  
*Vagn.*

Once again, the Christmas holidays are fast approaching, and we would like to take this opportunity of thanking all of our loyal customers for their support during 2016.

Please note that our Parts department and Workshop will be open over the Christmas / New Year period, to service your requirements, except the statutory days.

Don't forget to take some time to do some basic safety checks before you leave home.

- Check headlights, indicators and brake lights.
- Check all fluid levels.
- If using a tow bar - ensure that it is of a recommended type for your vehicle and your intended use.
- Keep that safe distance between you and the car in front of you. Also allow for the extra weight of a loaded vehicle, or if you are towing a boat, caravan etc. as this will increase the stopping distances required.

It pays to have your vehicle in tip-top condition before you start out, so let us complete the Pre-Holiday vehicle service so you can have a 'trouble-free' journey.

Our Workshop bookings will be tight in the lead-up to the holiday period, so don't delay, phone one of our service advisors for a booking – **5793710** option 3.

We hope you have a **Merry Christmas,**  
**happy holidays, and most of all –**  
**safe, trouble-free motoring.**

## Volkswagen News ...

**VW Beetle is not something that comes to mind when thinking of fast cars.** However, a specially built yellow Beetle has smashed a World Speed record that has stood since 1988, nearly 30 years ago, at Lake Bonneville, in Utah.

The Land Speed Record featured a 2.0 litre TSI turbo model Beetle - 410kW (550bhp). Modifications such as - new turbocharger, different pistons, camshafts, connecting rods and cylinder head rework, all helped make this possible. So definitely not your standard VW Beetle.

It also sported very fast tyres *dubbed* "moon disc" style wheels.

The actual speed achieved was a very impressive 326.195 km/h over a distance of 1.6 km. Previously, the fastest speed achieved by a Beetle was 281.6km/h.

**World Speed breaker Beetle**

Volkswagen still has a very dedicated following within its brand, and the emissions scandal has not completely ruined their reputation of reliability and endurance.

They have chosen the VW Alltrack over the Passat and Tiguan, as the model which is best suited and with most appeal for the American market.

**We now offer the latest diagnostic equipment including Key Coding and Software Updates for your late model Volkswagen, Audi and Skoda. Contact us for more information.**

### **QUALITAT SERVICING** **With every FULL service, comes a FREE car wash.**

Getting your vehicle serviced at regular intervals is vital to your car's long life and good performance, not to mention fuel savings.

For vehicles less than 5 years old, every 15,000 km or 12 months.

For vehicles five years and older, every 10,000 km or 12 months.

For older air-cooled vehicles, every 6000 miles or 6 months.

### **Pre-Purchase Vehicle Inspections**

**Qualitat** offers a comprehensive pre-purchase inspection service so you can be informed about your next purchase.

Pre-purchase inspection is priced at 218.50 incl. g.s.t.

### **Free W.O.F. check**

If you have a FULL service when your Warrant of Fitness is due, you will get the WOF check for free, saving \$60 + GST.

**Phone (09) 579 3710 now, for an appointment.**

## Electric Concept Cars

### VW

Starting with concept cars, Volkswagen is working on what could possibly be 20 new models - all plug-in vehicles.

Electric Vee Dubs could be the next big 'revolution' quietly taking over the roads of the future.

### Porsche

With more and more car manufacturers investing in Electric Vehicle development, we may see a swing towards this mode of power driven cars. Porsche Mission E is the name of their prototype vehicle which is at the testing phase of development.

A spin off from this could be the electric vehicle battery business, and Porsche is also considering this avenue for future investment.

Whatever their developments produce, they will be wanting to maintain that 'sporty look' when they finally present their EV models.

and to the **Not So New** -

This 1957 Porsche 356A Speedster recently sold for a staggering A\$411,000 in Sydney

## Audi News:

Look - "no hands" may be the catch-phrase of the future. Audi's next-generation Audi A8 luxury sedan will have the capacity for autonomous driving. However, as international legislation is not keeping up with new technology, Audi says it will take full responsibility for any accident or fatality incurred by an Audi while in autonomous mode. That's a pretty big claim, and certainly - *putting your money where your mouth is*.

So imagine checking your emails as you drive to work, reading the paper, or whatever?

Onehunga Towing 5260026.

The keys can be deposited into the key drop.

Have a wonderful Christmas and a  
Happy New Year from the team at  
**Qualitat!**

Autonomous driving will only be possible at speeds of up to 65km/h. The car will do the steering, braking, accelerating, and changing lanes.

However, if the car detects a situation where it needs to alert the driver to take control, it will give a 15 to 20 second warning.

It is anticipated that this new technology will lead to a reduction in the road fatalities, possibly down to zero.

Long-term, this may result in cars with no steering wheels, and no pedals.

Who saw that coming?
